

RESEARCH INTERESTS

Design of field experiments, Precision agriculture, Internet of Things, agricultural Cyber-Physical Systems, and Decision Support Systems.

EDUCATION AND PROFESSIONAL POSITION

- Postdoctoral Research Assistant in Department of Agronomy (*Agroecosystem Modeling*) 2026
 - Purdue University, United States (Advisor: Dr. Pratishtha Poudel)
- Ph.D. in Agricultural and Biological Engineering (*Digital Agriculture*) 2025
 - Purdue University, United States (Advisor: Dr. James V. Krogmeier)
 - *Dissertation : The Use of High-Resolution Geospatial Data for Decision Support Systems Required in Large Area Distributed Systems*
- M.S. in Agricultural and Food Engineering (*Farm Machinery and Power*) 2017
 - Indian Institute of Technology, Kharagpur, India (Advisor: Dr. Virendra K. Tewari)
 - *Dissertation : Embedded GPS-integrated Variable Rate Fertilizer Applicator*
- B.Tech in Electronics and Instrumentation Engineering 2013
 - College of Engineering and Management, Kolaghat, India (Advisor: Dr. Saibal Pradhan)
 - *Determination of Wind Energy Density in India Using the Weibull Distribution*

AWARDS

- The Estus H. and Vashti L. Magoon **Research Excellence Award**, Purdue University 2025
- Bilsland Dissertation Fellowship, Purdue University 2025
- IEEE Circuits and Systems Student Travel Grant to Uruguay 2025
- Purdue Graduate Student Government Travel Award, Purdue University 2025
- Graduate Student **Best Poster Award** at the 100th CRWAD conference, Chicago, Illinois 2019

RESEARCH EXPERIENCE

- Calibrating Agronomic Models to Indiana Parameters 2026
 - Role: Leading Postdoctoral Researcher, Purdue University
- The Use of High-Resolution Geospatial Data for Decision Support Systems Required in Large Distributed Networks in the United States 2022-2025
 - Role: Leading Graduate Research Assistant, Purdue University
 - Ph.D. thesis project with Dr. James V. Krogmeier from Elmore Family School of Electrical and Computer Engineering at Purdue University
- Comprehensive Pavement Management Tool under the Purdue Indiana Department of Transportation Joint Transportation Research Program (JTRP), SPR4521 2021-2023
 - Role: Leading Graduate Research Assistant, Purdue University
 - Collaboration with Dr. Seonghwan J. Cho from Indiana Department of Transportation
- Generating Dynamic Prescription Maps for Winter Road Treatment via Sun-Shadow Simulation 2020-2021
 - Role: Graduate Research Assistant, Purdue University
 - Collaboration with Dr. Darcy M. Bullock from Lyles and Porter School of Civil Engineering, Purdue University
- Establishing an AMR surveillance system in the USA to analyze the E. coli resistome across the One Health spectrum 2018-2020
 - Role: Leading Graduate Research Assistant, Purdue University
 - Collaboration with Dr. Audrey Ruple from the Department of Public Health, Purdue University
- Big Data solutions in Agricultural decision support applications using Twitter data 2017-2018
 - Role: Leading Graduate Research Assistant, Purdue University
 - Collaboration with Dr. Mark D. Ward from the Department of Statistics, Purdue University
- On-the-go embedded variable rate fertilizer applicator for variable nitrogen fertilizer application 2014-2017
 - Role: Leading Graduate Research Assistant, IIT Kharagpur
 - M.S. Thesis project with Dr. Virendra K. Tewari of Agricultural and Food Engineering Department at IIT Kharagpur

Identify the city for the establishment of wind energy plants in the four main windy regions of India using the Weibull distribution in MATLAB 2012-2013

- Role: Leading Undergraduate Researcher
- Advisor: Dr. Saibal Pradhan from Department of Applied Electronics and Instrumentation Engineering, College of Engineering and Management, Kolaghat

Optimization of the Design-to-Cost Ratio of Buck-Boost Converters in the Texas Instrument Webench Webtool 2012

- Role: Undergraduate Research Intern
- B.Tech Internship project with Dr. Amit Patra from Department of Electrical Engineering at IIT Kharagpur

RESEARCH ACHIEVEMENTS

TEACHING

- Instructor for Python Programming for Digital Agriculture under the NSF HEC grant in 2022 and 2023.
- Instructor for Python Programming for Digital Agriculture under the SURF and REU grants in 2021, 2022, 2023.

SERVICES

Innovations and Ecosystems Liaison for IoT4Ag Student and Post-doc Leadership Council, 2024. IoT4Ag is an NSF-funded ERC including Purdue University, University of Pennsylvania, University of Florida, and University of California, Merced.

REU mentor for IoT4Ag mentored REU and SURF students in 2021, 2022, and 2023.

Professional Development Chair of ABE Graduate Student Association (GSA) in 2019

Planning committee head of the ABE GSA symposium in 2019, organized the ABE GSA symposium.

Sneha Tha
